Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1-11,13,14,16,17,21,24,25,27-29 and 32-42.

DETAILED ACTION

The amendment filed October 6, 2005, has been received and entered.

Claims 1-11, 13, 14, 16, 17, 21, 24, 25, 27-29, 32-42 are pending. In view of the amendment to the claims, a restriction is required. Note that claim 14 depends on a cancelled claim.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

(a) the additional ingredients recited in claim 17 (beta-hydroxy acid; alpha-hydroxy acid; alpha or beta-keto acid; urea; gentisic acid; oligofucoses; cinnamic acid; Saphora japonica extract; resveratrol or derivative thereof; glycosidase, *stratum corneum* chymotryptic enzyme or other serine or cysteine protease; chelating agent; aminosulphonic compound; sugar derivative; reducing agent and/or retinoid); and

(b) the diseases listed in claim 24 (hyperkeratosis, xerosis, ichthyosis, psoriasis, reactive keratosis).

(c) the compounds recited in claim 33, which are also recited in claims 34-42.

Applicant is required under 35 U.S.C. 121 to elect a **single** disclosed species of from each of (a), (b), (c) set forth above, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-11, 13, 14, 16, 21, 25, 27-29, and 32 are generic.

Art Unit: 1651

Thus, a properly responsive election would appear as follows: --

Applicant hereby elects, with traverse, retinoid as the additional ingredient of species (a), hyperkeratosis as the disease of species (b), and asparaginase as the compound of species (c).

--.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
